the challenge?

Mini-series : the daily life of my class

Degree of difficulty

Medium

Pupils age

5 to 12 yo

Duration

1 quarter

Material

A smartphone to take the photo and post it online.

Objectives

- Introduce the local school system
- Highlight the projects carried out by the school (ecological, artistic, etc.)
- Discovery of students' passions and interests (similarities and differences across the world) which allows students to discover common points beyond borders

Description

Film or make a photo report on the daily life of your class.

Some ideas :

- What subjects are taught?
- How is the day organized (the rituals ...)?

Pupils tell about their weeks at school, what they like, the homework they have to do, what games they play at playtime, the events or projects set up in the school, etc.

Post your work in the thematic group **HERE** on the social network once your mini-series are ready.

Advice :

- For a video: duration not to be exceeded = 5min. To be hosted on an external server and put the link on the post or article.
- For several photos linked to the text : use the tool "blog article" that is **HERE** on the social network
